SUMMARY

Results-driven **UX/UI Designer and Business Analyst** with over 2 years of experience building digital solutions for enterprise ERP and financial platforms. Expert in translating complex operational bottlenecks into highly intuitive, user-centric interfaces and structured system workflows. Adept at leveraging modern AI-assisted engineering frameworks to bridge the traditional gap between design prototypes and stable production code.

WORK EXPERIENCE

UX/UI DESIGNER & BUSINESS ANALYST

Oct 2024 - Present

Gen Soft Co., Ltd.

Bangkok, Thailand

- Transformed paper-based Beneficiary Designation Requests into a streamlined, digital mobile feature, significantly reducing data entry errors and user friction.
- Interfaced directly with enterprise clients to map business requirements into actionable UML diagrams, facilitating a complete system redesign of the Meeting Management system.
- Managed design-to-production handoffs for E-Correspondence, Debt Tracking, and Legal Case Management systems, utilizing AI assistance to co-author pixel-perfect C# and .NET Blazor components aligned with design systems.
- Orchestrated User Acceptance Testing (UAT) sessions on-site with end-users, successfully translating real-world user feedback into continuous product backlogs and iterations.

UX/UI DESIGNER & PROJECT MANAGER

Apr 2024 - Sep 2024

Relearn Solution

Bangkok, Thailand

- Architected a responsive multi-subject student assessment portal and landing page, refining user journeys and maximizing mobile layout friendliness across all device configurations.
- Directed end-to-end design lifecycle, aligning product roadmap goals with development sprint plans to guarantee 100% on-time project shipping.
- Awarded a direct executive referral to GEN SOFT based on outstanding project delivery, high performance, and cross-team leadership.

SELECTED PROJECTS

THAILAND POST TRACK & TRACE APP REDESIGN (UX CASE STUDY)

Oct 2025

Core Focus: User Research, Information Architecture, Interactive Prototyping, Figma

- Conducted qualitative user interviews and Play Store reviews analysis to identify usability bottlenecks, resolving critical user anxiety points like "No data found" errors and lack of delivery ETAs.
- Restructured application information architecture, introducing a visual Progress Tracker, clear Estimated Delivery Date displays, and a highly discoverable search-integrated barcode scanner.
- Designed low-fidelity to high-fidelity interactive prototypes in Figma, replacing ambiguous bottom navigation with standard, recognizable design patterns to rebuild digital brand trust.

EDUCATION

Bachelor of Science in Digital Media Engineering | Khon Kaen University

May 2019 - Dec 2023

ADDITIONAL INFORMATION

Design: Figma, Wireframing, Rapid Prototyping, Design Systems, Responsive Layouts, User Journey Mapping, Competitor Research

Analysis & Data: Business Analysis, Requirements Gathering, UML Diagramming, Database Modeling, User Research, Usability Testing

Tech & Tooling: Next.js, TypeScript, C#, .NET Blazor, Prisma, DBeaver, SQL, Jira, Claude Code, Gemini CLI, HTML5 & CSS3

Languages: Thai (Native), English (Professional Working Proficiency)
